

**CITY OF COSTA MESA
MEMBER OF THE CITY COUNCIL**

ERIC BEVER

OCCUPATION: Citizens' advocate, businessman, Planning Commissioner

As a longtime Costa Mesa resident and homeowner, I am extremely concerned about the downward spiral of our fine city.

Of note:

Council approved budgets that slashed millions from needed street repairs, and produced deficits totaling \$14,000,000 in the past three years.

Rather than fighting Airport expansion, Council waffled; residents now suffer greater airport impacts.

Contradicting the General Plan, Council and Planning Commission voted to allow a huge double-density condominium project at 1901 Newport, adding traffic congestion, further eroding our quality of life.

Instead of discouraging illegal immigration; Council put out a welcome mat. Council has done nothing to promote the creation of quality Senior housing.

Residents wishing to build their dream homes are often bombarded with red-tape, even when all codes are met.

Unlike the civic neglect of recent Councils, I will focus on those issues most important to the friends and neighbors, Moms and Dads, and business leaders I have spoken with. These include:

Public safety / Law enforcement / Property rights / Senior housing / Infrastructure / Streets / Responsible development / Traffic / Protecting quality of life / Westside improvement / Fiscal responsibility.

Voters . . .Costa Mesa is at a crossroads; the future is in your hands. With your support we can make Costa Mesa great!
